

1.5 kW solar system price in Curaçao

How much does a 1.5kW solar system cost?

Now that we've established the potential savings and benefits of a 1.5kW solar system, let's delve into the cost aspect. The typical price for a 1.5kW solar system is around \$3,000. It's important to note that prices have significantly decreased over the past decade, making solar energy much more accessible and affordable for homeowners.

Is a 1.5kW solar system a good value?

Due to a scheme called the "solar multiplier" you used to get twice the rebate for the first 1.5kW of any system, compared to subsequent kW's. So in terms of dollars per kW, a 1.5kW system represented the best value. However, all that has now changed. The "solar multiplier" which favoured 1.5kW solar systems is gone. But don't panic!

Do I need a 1.5kW solar system?

Whether or not you need a 1.5kW solar system will depend on many things. If you are a Residential customer and you use between 4.1kWhs and 9kWhs then a 1.5kW solar system could be a good choice to help reduce power bill costs. Solar Proof Quotes offer a quick and easy way to get 1.5kW solar system quotes.

How much does a kW solar system cost?

To cut a long story short, you can now get a subsidy of approximately \$350 for every kW installed. How many solar panels make up a 1.5kW system? To make up a 1.5kW solar system you needed 6 solar panels, assuming that you use 250W panels, but 415W modules are commonly used these days. 250W panels have pretty much gone the way of 1.5kW systems.

Is there a rebate for a 1.5kW solar system?

The "solar multiplier" which favoured 1.5kW solar systems is gone. But don't panic! We still have a solar rebate! To cut a long story short, you can now get a subsidy of approximately \$350 for every kW installed. How many solar panels make up a 1.5kW system?

How much do solar panels cost?

Lower-quality panels can cost about \$550. The actual cost of the system will depend on your location, quality and brand of the solar panels. It is recommended to obtain quotes from local installers to gain an accurate understanding of the cost of a 1.5 kW solar power system and to discover what rebates and incentives are available in your region.
