

Will Algeria build a one-gigawatt solar energy project in 2021?

Towards this end,Algeria launched a tender for a one-gigawatt solar energy project in 2021,comprised of building five power generation sites ranging from 50 to 300 MW each.

Which Algerian companies have been awarded solar projects?

The rest of the projects have been awarded to Algerian companies, sometimes in partnership with foreign groups. Cosider Canalisation-Fimer SPA will develop two solar plants at Kenadsa in the Bechar Wilaya (120 MW) and in the Toggourt Wilaya (150 MW).

Is Algeria a good country for electricity?

Algeria has the technical and financial capacity to meet the country's electricity needs,as well as the assets required for its energy transition. Significant efforts have been made to increase the production capacity,as evident in the development of the installed power generation capacity over the past decade.

How much solar energy does Algeria generate?

Instead,today Algeria generates only 411 megawattsfrom renewable energy sources. Nonetheless,officials hope that the new strategy described will reinvigorate attempts to bring more than 1 gigawatt of solar energy online by year-end and an additional 13 gigawatts by 2030.

What is Algeria's solar power supply chain?

The Algerian solar power supply chain grew significantly in the last decade and now seeks to add IPP development, engineering and design capabilities, EPC services, inverters manufacturing, storage solution manufacturing, universal certification expertise, and operations and maintenance services.

Which companies are building a 200 MW power plant in Algeria?

PowerChina NTL-SinoHydrowill build a 200 MW plant at Laghrou and PowerChina Zhongnan Engineering Corporation will build a 150 MW plant at Khanguet Sidi Nadji,both located in the Biskra Wilaya. The rest of the projects have been awarded to Algerian companies,sometimes in partnership with foreign groups.

Algeria, long renowned for its abundant hydrocarbon resources, is now navigating a dual path: sustaining its role as a key natural gas supplier to Europe while rapidly accelerating its energy transition ambitions.

The plan includes three substantive pillars: a National Energy Conservation and Efficiency Program, a National Renewable Energy Development Program, and a new National Energy Mix Model. Energy conversation and efficiency efforts will improve energy efficiency by ten percent annually in transportation, housing, and industry.
