

Arecor energy Togo

Who is arecor energy?

info@arecorenergy.com © 2024 ARECOR Pty Ltd. All rights reserved. Alternative Renewable Energy. State-of-the-art clean, green and affordable baseload energy

Why should you choose arecor?

At the forefront of renewable energy innovation,ARECOR harnesses the power of water to provide reliable,affordable and sustainable clean energy solutions. Our team's 400+years of combined expertise in energy,infrastructure and aerospace has enabled ARECOR to set new standards in emissions-free baseload energy generation.

How can arecor transform natural water dynamics into sustainable power solutions?

Explore the frontier of hydropower with ARECOR as we transform natural water dynamics into sustainable power solutions for tomorrow. ARECOR specialises in large-scale solutions that provide clean, affordable and sustainable renewable energy generation and storage Proprietary, hydrokinetic turbines with the highest power coefficients ever achieved.

What is arecor & how does it work?

Unlike intermittent solar and wind, ARECOR systems operate at up to 95% capacity, consistently delivering baseload energy. Designed to be submerged and out of sight, our turbines do not disrupt aquatic life or require dam construction, ensuring minimal environmental impact.

Our highly skilled and experienced professionals range from seasoned engineers crafting cutting-edge clean energy technology to dedicated project managers steering small to large-scale renewable energy projects. Together, they drive our mission to ...

Our team's 400+ years of combined expertise in energy, infrastructure and aerospace has enabled ARECOR to set new standards in emissions-free baseload energy generation. Committed to reliability, affordability and sustainability, ARECOR is meeting today's energy demand while driving a cleaner energy future for tomorrow.

(Togo First) - On September 25, Togo presented feasibility studies for several energy-related projects it seeks to have covered by the Compact Program of Millenium Challenge Corporation (MCC). The projects aim to expand the electricity grid, boost access to electricity, and enhance regulatory policies and the skills of energy sector workers.

We provide baseload energy at a very competitive levelized cost of energy (LCoE), compared to all other energy production alternatives. This allows communities to have access to clean water and electricity, sewage treatment, improving therefore life quality and expectancy.

Arecor energy Togo

Today, ARECOR is reshaping the renewable energy landscape through its innovative turbine technologies and a growing portfolio of clean energy projects worldwide. The company's relentless drive for innovation ensures its position at the forefront of the clean energy transition.
