

Austria sabah bess project

How much is the Sabah Bess project worth?

The contract, valued at approximately RM645 million, covers the engineering, procurement, and construction of the Sabah BESS Project. The signing ceremony was attended by Sungrow Senior Vice President Mr. James Wu and MSR-GE Director Mr. Xavier Qiang at Sungrow's headquarters.

How will Bess project affect Sabah's power grid?

Sabah Electricity Sdn Bhd chief executive officer Mohd Yaakob Jaafar (pic) said the BESS project will increase the state power grid's generation with a capacity of 100MW and energy storage of 400MWh (megawatt-hour). He said SESB has received a letter of notification from the Energy Commission of Sabah (ECoS) for the project.

Who is the lead company in Sabah Bess project?

MSR-GE, the lead company in the venture, successfully secured the tender from Sabah Electricity Sdn. Bhd. (SESB) and accepted a Letter of Award dated September 11, 2024. The contract, valued at approximately RM645 million, covers the engineering, procurement, and construction of the Sabah BESS Project.

Where is SESB launching a 100 mw Bess system?

SESB has since received a Letter of Notification from the Energy Commission of Sabah for the 100MW BESS with a 400MWh capacity, located in Lahad Datu on the eastern coast of Sabah. This project, which boasts a maximum energy storage capacity of 400MWh, will be one of the largest BESS systems in Southeast Asia.

Will Ecos & Sabah state government implement Bess project?

"The trust given by ECoS and the Sabah state government to SESB to implement this BESS project will be carried out with full responsibility and effort to ensure the project is successfully powered within the targeted timeframe," said SESB.

What is Bess project in Lahad Datu?

The Dam Road substation in Lahad Datu, which is being upgraded, will serve as the injection point for power generated by the BESS project. "This BESS project will increase the stability of generation (for) the Sabah Grid, contribute to environmental sustainability, and increase the potential generation capacity of renewable energy," Yaakob added.

MSRGE has successfully implemented an off-grid Solar BESS hybrid system with Sungrow's solution to supply 24/7 clean energy to a palm oil plantation in Sabah. We look forward to ...

KOTA KINABALU (Sept 11): Sabah Electricity Sdn Bhd (SESB) will develop a 100MW capacity battery energy storage system (BESS) infrastructure as well as a 400MWh energy storage facility in Lahad...
