

Best place to buy solar panels Monaco

How do solar panels work in Monaco?

In Monaco, it is possible to capture the energy from the sun in two ways: with solar photovoltaic panels, which transform sunlight into electricity, and with solar thermal panels, which use the energy produced by the sun's rays to heat water. It is primarily solar photovoltaic panels that are found on building roofs in Monaco.

Where are solar panels found?

They are also found on residential buildings, such as Hélios and Jardins d'Apolline, and on office buildings like the SBM Offshore building in Fontvieille. All of these panels produce electricity which is consumed by the building to meet its energy needs like lighting.

How many heat pumps are there in Monaco?

The country now has more than 80 pumps. Some of the buildings in Monaco which are heated or cooled using seawater heat pumps include the Grimaldi Forum, the Oceanographic Museum, the Rainier III Auditorium and the SBM buildings. The Principality has plans to develop two ocean thermal energy loops to expand the use of this source of energy.
