

Best solar modules Rwanda

How many solar home systems are there in Rwanda?

Approximately 50,000 solar home systems have been installed in Rwanda over the last 3 years.

Is there a market for solar energy in Rwanda?

Only few companies in Rwanda are active in the field of solar energy. They focus mainly on the market for larger systems for public institutions, e.g. hospitals, schools etc through public tenders. In addition they and others are also trying to sell solar home systems but the market for solar lanterns and small home systems is still in its infancy.

Is Rwanda a significant source of solar energy?

Rwanda has a moderate source of solar energy, with an average solar radiation of 4 - 6 kWh per square meter per day. It has had a useful experience with the 250 kW Kigali solar project and solar water heaters. However, Rwanda's energy mix is currently dominated by biomass, which accounts for about 85% of primary energy use.

How many Rwandans are accessing electricity through off-grid solutions?

As a result, today, 14% of Rwandan households are accessing electricity through off-grid solution, mostly solar home systems.

Is solar energy a viable solution for rural households?

Solar energy is a promising solution to meet the demand for rural households' electricity services in remote locations. As of May 2021, 16 % of Rwandan households are accessing electricity through off-grid systems, mainly solar.

When will Rwanda Energy access & quality improvement projects (EAQIP) funds be available?

It was established in 2017 and is still on going up to 30 th September 2023. The Rwanda Energy Access and Quality Improvement Projects (EAQIP) funds under Window 5 was launched on 2 nd October 2020 will be available until 31 st December 2026.
