What is a Bluesun solar system kit?

Customized solar system , From solar panel to inverter to the screws - Bluesun system kits contain all of the components necessary to construct and operate a solar power system. Once the Bluesun kit is delivered, it is ready to be installed. Bluesun can provide 12V 24V 48V 51.2V and high voltage lithium ion batteries.

What services does Bluesun offer?

Bluesun has a professional technical team that can provide complete system design,including residential systems,industrial and commercial energy storage systems and large-scale power stations.

What should I know about Bluesun modules?

with its mechanical and electrical requirements. Keep this guide in a safe place for future reference (care and maintenanc) and in case of sale or disposal of the modules.BLUESUN modules ar tested and certified for installation worldwide. Different regions may have

What is the recommended ground wire for a Bluesun module?

pper wire recommended as ground wire.MaintenanceTo ensure optimum module performance, BLUESUN recommends the following maintenance measures: Clean the module minimum once a year or mo e often when required depending of t e pollution. Remove all organic from the surface. Module with soiling or contaminat
