

Beneficiario: BORNAY AEROGENERADORES, SL. Programa: Proyectos de innovación de Pyme (INNOVA-CV). Proyecto: Desarrollo de un nuevo producto, baterías de litio con capacidad de entre 0.5 y 50 kWh por parte de Bornay Aerogeneradores SLU. Expediente: IMINOA/2023/81. Actuación: INNOVACIÓN DE PYME. INNOVACIÓN DE PRODUCTO (INNOVA ProD-CV) 2023

Proven technology with new application areas for PV systems - the SMA Multicluster System 12 is now suitable for operation on the utility grid as well. In Germany, it complies with the applicable conditions for connection to the low-voltage grid of VDE-ARN 4105: With the battery inverters Sunny Island 6.0H or 8.0H and the NA-Box 12, commercial self-consumption and ...

Bornay, manufacturer of small wind turbines and distribution of products for renewable energy systems. Wind energy will be one of the most used energies in the future of renewable energy. It consists of small wind facilities for electric consumption, which have a connected batteries, regulators and investors wind turbine that can store ...

Starting from a small electricity workshop for automobiles and a die stamping press, Bornay came into existence at the beginning of the 1970s. Bornay appears in the early 70"s under the direction of Juan Bornay, and today it continues to be a family firm, now in its second generation.

Flexible system design for larger commercial PV systems: The Sunny Tripower CORE2 is the ideal inverter for decentralized system structures up to the megawatt range. With 110 kilowatts, 24 strings and 12 MPP trackers, the Sunny Tripower CORE2 allows for a particularly high solar coverage in ground-mounted PV systems as well as at different roof pitches during the day.

Project: Bornay Digital Transformation. File: IMDIGA / 2017/169. Result: The project consisted in the development of a remote monitoring system for the wind turbines manufactured by Bornay and the introduction of digital systems to improve the customer service provided by the company.

Bornay, as one of the main companies supplying energy where there is none, with a big experience into different type of installations, users, needs and placements ... have enough knowledge and capacity to offer you a big portfolio of solutions according your minimum needs.

The SMA Sunny Island 4.4M / 6.0H / 8.0H supports a wide range of on-grid and off-grid applications in the 3 to 25 kW range - from operation in remote off-grid areas to home energy management. Furthermore, being a core element in the SMA Flexible Storage System for new and existing PV systems, it stores generated solar power and works with the Sunny Home ...

Bornay company Norfolk Island
