

Can Botswana meet its energy needs in 2021?

According to the International Renewable Energy Agency (IRENA), Botswana could meet 15% of its energy needs in 2030 from its indigenous solar, wind, and bioenergy resources. (2021 evaluation)

Does Botswana have a good electricity supply?

According to Statistics Botswana, local electricity generation and distribution has showed a slight improvement, increasing by 10.2 percent from 807,943 MWh during the fourth quarter of 2022 to 890,655 MWh during the first quarter of 2023. The increase was attributable to the performance improvement of Morupule A and B power stations.

Where does Botswana get its power?

In 2023, BPC agreed to procure up to 600 MW of power generation from a yet-to-be-built coal-fired power station. Additionally, Botswana imports the bulk of its power from South African utility Eskom, and the rest from Nampower (Namibia), Zesco (Zambia), and the Southern African Power Pool (SAPP), to make up for any production shortfalls.

Does Botswana utilize solar energy?

Botswana has one of the highest levels of solar insolation in the world, but until recently, there were no reports of significant use of solar energy. However, as of September 2012, the first solar power generation plant in the country has been opened. The Botswana Renewable Energy Conference was held on 11-12 August 2014.

What is the energy situation like in Botswana?

Botswana's energy sector is a growing industry with significant potential. Almost all of Botswana's electricity is generated from coal. There are no identified petroleum reserves, and all petroleum products are imported and refined, primarily from South Africa. Botswana also has an extensive supply of woody biomass, ranging from 3 to 10 tons per hectare.

How is Botswana strengthening its exporting capacity?

To strengthen Botswana's exporting capacity, the GoB is investing in national and regional grid infrastructure, as well as refurbishment of general transmission infrastructure. Botswana Power Corporation (BPC)'s rural electrification program is still ongoing, and this covers new connections and expansion in some villages.
