Who is Energy Systems Catapult?

Energy Systems Catapult |24,473 followers on LinkedIn. #NetZero energy innovation experts |Energy Systems Catapult are Net Zero energy innovation experts,turboboosting clean tech innovators and helping create the future energy system across homes,sites,places,networks and the whole system.

Is the Energy Systems Catapult a key part of the UK's energy Jigsaw?

Philip Newleft the position of CEO for the Energy Systems Catapult recently. Here he looks back on it becoming a critical part in the UK's energy jigsaw - and what the future may hold.

Why do you want to work at Energy Systems Catapult?

We're always looking for brilliant individuals who want to help accelerate the transformation of the energy system. Our ambition is that the work you do at Energy Systems Catapult will be the most important work of your career. Ready for a new challenge? Join us to: Solve the most complex problems on our path to decarbonisation.

Energy Systems Catapult (ESC) has been at the centre of a huge collaborative effort with industry, Government and the regulator to unlock the potential of digital technology and data to transform the energy system. This includes introducing an open data approach and harnessing digital technology to create jobs, growth and new consumer-friendly market propositions.

The Energy Digitalisation Taskforce was established by the Department for Business Energy and Industrial Strategy (BEIS), Ofgem and Innovate UK to deliver a set of actionable recommendations that challenge the status quo and help deliver the digitalised energy system needed to reach Net Zero. The key objectives of the taskforce were to:

Heat-as-a-Service: Energy Systems Catapult is running trials with energy companies in our Living Lab of over 1,000 homes, to test the concept of selling a service outcome - a warm and comfortable home - rather than selling units ...

Energy Systems Catapult is a company focused on accelerating the transformation of the energy system towards Net Zero in the energy sector. The company offers services such as energy innovation, testing and accelerating home energy innovations, decarbonising sites, empowering local places to take Net Zero action, and equipping energy ...

Energy Systems Catapult offers a range of models, tools and labs to help governments, industry and innovators navigate to Net Zero. Our Living Lab. Quick, safe and affordable.
