

"When the energy sector forms tech partnerships, there are so many issues to be solved, from AI ethics to sustainability, that we don't know where to start," said Uthman Ali, global responsible AI officer at BP. He suggested that energy companies focus on one aspect at a time, making sure to develop "something feasible" rather than tackling many challenges ...

The company focuses on sustainable and community-driven energy solutions. CrossBoundary Energy Access (Nigeria, Sierra Leone): CrossBoundary develops solar mini-grids that deliver reliable electricity to off-grid communities, working closely with local partners and governments to expand access to renewable energy. 2.3 Battery Storage and Inverters

Nokia says the latest generation of ReefShark can reduce energy consumption by an additional 15%. According to Airtel, these solutions will optimise energy management and have a positive impact on both its energy bills and carbon footprint without compromising network performance or user experience.

5 ???· In 2024, the humanitarian community in CAR plans to assist 1.9 million most vulnerable people. US\$ 367.7 million is required. -- Humanitarian actors provided life-saving assistance to 2 million people in 2023. -- Increasingly worrying humanitarian situation in the Haut-Mbomou Prefecture -- Faced with insecurity in their villages, Chadians seek refuge in northwest Central ...

In the Central African Republic, only 700,000 people of its 4.9 million people have access to electricity and about 60 percent of the country's population live in rural areas. Electricity access to the national power grid is limited and unpredictable. This lack of electricity access has made the country vulnerable during the COVID19 pandemic. A [...]

Analyst Take: Nokia adroitly introduced a full range of energy efficiency improvements across its radio access network products at MWC 2023. The improvements incorporated the latest ReefShark System-on-Chips ...

Equatorial Guinea's Minister of Mines and Hydrocarbons, H.E. Gabriel Mbaga Obiang Lima, this month provided an exclusive update on the Central African Pipeline System (CAPS) project's timeline and implementation progress during a meeting organised by the African Energy Chambers.
