

How much does a solar power plant cost in Chile?

Because of its good solar resource several international companies have bid record low prices for solar thermal power plants in Chile, including the Copiapó Solar Project bid at \$63/MWh by Solar Reserve in 2017. If realized this would have been the lowest ever price for a CSP project in the world.

Will increasing solar energy demand boost solar energy capacity in Chile?

The increasing solar energy demand will likely boost the solar energy capacity across the country over the forecast period. The Chile solar energy market is fragmented. Some key players in this market (in no particular order) include Acciona, S.A., Jinko Solar Holding Co., Ltd., Trina Solar Limited, Enel Green Power S.p.A., and First Solar, Inc.

How much solar power will Chile have in 2022?

Due to the government's favorable policy, the solar power sector in the country grew from almost non-existent in 2012 to over 6.2 GW by the end of 2022. In 2022, Colbún SA, the Chile-based investor, submitted an environmental assessment for a 422 MW solar PV plus storage project it plans to build in Chile.

How are private investments influencing the solar market in Chile?

Furthermore, private investments are also steering the market in the country. For example, in 2023, Enel Green Power Chile, a subsidiary of Enel Chile, commenced construction of its new El Manzano solar power park in Tiltil, which will be the company's first large-scale photovoltaic solar power plant in the Metropolitan Region.

When will Chile start supplying electricity to the National System?

The Chilean energy regulator concluded an auction to supply electricity to the national system over a period of 15 years from 2027. Chile's Calama Solar 3 PV plant, said to be the first industrial-scale solar plant in South America, with a total installed capacity of 1.1 MWp. Image: CVE Chile From pv magazine Latam

When did SolarPack start supplying power to Chile?

In March 2020 PV Magazine reported that Solarpack had begun providing power on 2 March 2020, to the Chilean grid from its 123 MW Granja project, 10 months ahead of the contracted date of 1 January 2021. With that, Solarpack raised its total operating capacity in Chile at the time to 181 MW.
