Who is Chint solar?

Chint Solar is a leading player active in project development, financing, realization and operation of solar parks.

Where are Chint solar panels made?

CHINT Solar/Astronergy produces solar panels in China and has a solar cell factory in Thailand. As far as I can tell they don't have manufacturing facilities in other countries. They did buy a factory in Germany in 2014 after Conergy ran into financial problems, but sold it this year.

Where is Chint solar working?

Our European project development activities started in 2016. We are now working on the energy transition in France, Germany, Hungary, Italy, Portugal, Spain, the Netherlands and the United Kingdom. Chint Solar has already completed more than 800 MWp of solar parks in Europe, which equals providing sustainable energy to more than 250,000 households.

Does Chint still make solar panels?

CHINT is a big company -- as in billions of dollars of revenue each year big. It's also diversified, which means they do more than just make solar panels. Hopefully, this increases their odds of still being around in the future to honor their solar panel warranties. The company was founded in 1984 and has around 30,000 employees.
