

# Cleaning of rooftop photovoltaic panels

How do you clean solar panels on a roof?

Cleaning solar panels on a roof requires extra precautions for safety. Use a sturdy ladder or roof anchor system, and wear non-slip shoes. Start by rinsing the panels with a garden hose, then gently scrub with a soft brush and mild soap solution. Rinse thoroughly and dry with a squeegee or cloth. 3. What is the best way to clean solar panels?

How to clean solar panels?

Step 2: Choose the best approach: If your solar panels are on the roof, consider using a telescopic window cleaning pole to clean them from the ground instead of using a ladder. Step 3: Mix your cleaning solution: In a bucket of warm water, mix a small amount of mild detergent or use a specialised pre-mixed solution.

How do you clean ground-mounted solar panels?

However, some homeowners who have the space can install ground-mounted solar panels or position them on a shed or outbuilding. In order to clean these, one of the most common methods for cleaning solar panels is manual cleaning using water and a soft brush, sponge, or cloth.

Do solar PV panels need to be cleaned?

That said, most solar pv panels in the UK will not need any heavy-duty cleaning because regular rain will wash most dirt and grime off the surface, dispelling one of the myths about solar being its difficulty to clean.

How do you clean roof panels without damaging them?

Keep the water pressure light to avoid damaging the panels. Don't use a jet-washer or high-pressure cleaner. They'd get your panels clean alright, but they may also damage them and their silicon seams, and may even dislodge your roof tiles. A smarter buy would be an extendable water-fed cleaning brush.
