

Cold electric Albania

Who is cold electric?

We are Cold Electric,a smart battery company. We reduce energy waste to almost zero,creating dynamic opportunities in a clean-energy future. Our batteries create decentralised,self sufficient living. The days when millions of people's electricity needs were met by a handful of large coal,nuclear and gas-fired power stations are waning.

Who produces electricity in Albania?

Albanian Power Corporation(KESH) is the public producer and the largest producer of electricity in Albania. KESH manages the main electricity production plants in the country.

What does Cold Electric do?

Cold Electric is committed to collaborating with customers and partners to drive innovation and development in energy technology. We look forward to working together with various stakeholders to achieve the goal of sustainable energy and contribute to creating a better living environment for the future.

What is a cold electric battery?

Cold Electric batteries allow users to store the wasted energy from the peak & off peak fluctuations,so cities don't waste energy on transportation and don't need to spend money on expensive power plants. Which battery is right for you? The Sport Utility Battery(SUB) is compact and ideal for homes.

Why do cities use cold electric batteries?

Transportation of energy from power plants to buildings creates 7.2% of this waste. Cold Electric batteries allow users to store the wasted energy from the peak & off peak fluctuations,so cities don't waste energy on transportation and don't need to spend money on expensive power plants. Which battery is right for you?

Are cold electric batteries safe?

Our batteries run at a temperature that is 15% lower than that of competitors,minimizing fire hazards and explosion risks. The fire risk for a typical LFP battery is 150C,for Cold Electric batteries it's between 280-320C due to charging and discharging at cooler temperatures. We're the safest and most stable battery on the market.

To stop in electric or hybrid vehicles, 2998 were registered in 7 months in Albania, or 81% more than the January-July period of last year. Meanwhile, 42% of vehicles with 0Km registered for the first time are electric or hybrid vehicles. In the month of July, there are 10,041 fleets of electric or hybrid vehicles or 42% more compared to last July.

Things to do in Gjirokaster Albania 1. Admire the houses. The first thing that hit me was the houses. I've seen medieval fairy tale houses around Europe before (in France, Bosnia, and Denmark), but none like these.. These two-story Ottoman houses are located in or near the bazaar and date back to the 17th and 19th centuries.
