

"Collective action is indispensable to ensure a resilient future in the face of multiple crises." The Board Meeting concluded with a resounding call for sustained mobilization and strengthened ...

Ahead of COP27, academics from 50 institutions have called for a shift in how politicians, funders and researchers think about the clean energy transition in the African continent, as a new study highlights radically different energy needs across countries.

Collective Energy Africa (CEA) is the African branch of Eft-Systems GmbH. Being established in Kenya in July 2021 CEA aims to introduce BYD technology in the sub-Saharan market by developing locally the after-sales service and purchasing operations.

Our dedicated service teams are strategically located in East and South Africa, providing full coverage across all African timezones. Whether you're in Nairobi or Cape Town, our expert technicians are just a phone call away, ready to assist with any issue.

At Collective Energy, our mission is to transform energy storage across Africa with top-tier BYD BatteryBox LFP products. We began our journey in Kenya, where we quickly became the leading distributor of lithium-ion batteries in East Africa.
