

Costa Rica solar energy cells

Currently, Costa Rica generates less than 1% of its energy production using solar power. The rest of the production is 79% Hydro, 12% Wind and 8% Geothermal. The final users of solar equipment are found in the residential, commercial, utility and in a lesser degree off-grid mostly in the inaccessible mountains and Cocos Island.

According to Ministerial Decree 39220 (Ruling for the distributed Electrical generators for self-usage), since October 2015 the installations of solar panels with DC to AC Inverters is legal in Costa Rica, but only for the purpose of generating electrical energy for self-residential, commercial and industrial usage.
