

Why was Orsted a/s rated in December 2022?

The affirmation of Orsted A/S's ratings in December 2022 reflects the company's leading market position globally in offshore wind power, which benefits from long-term price support mechanisms and good cash flow visibility in its countries of operation.

Is Orsted a good company?

This has diversified its operations by renewable technology and geography, which supports the rating. Orsted also has a portfolio of combined heat and power plants with a heat capacity of 3.4GWe and power capacity of 2.5GW (based on biomass, coal and gas) that reported substantially higher EBITDA in 9M22 due to high power prices.
