

Disassembly diagram of Huawei photovoltaic inverter

What if my Huawei solar inverter alarm persists?

If the alarm persists, contact Huawei technical support. Cause ID = 1-20 This alarm is generated when the PV string status is abnormal due to the following conditions: a single PV string is lost; both 2-in-1 PV strings are lost; one of the 2-in-1 PV strings is lost. Check whether the solar inverter terminals are properly connected.

Why is my Huawei solar inverter NOT working?

Turn off the AC output switch and then the DC input switch. Turn them on after 5 minutes and wait for the solar inverter to connect to the power grid. If the fault persists, contact your dealer or Huawei technical support. Cause ID = 1 The fuse is not in position or is blown. Cause ID = 2 The two relays on the breaking board are open-circuited.

How does a PV inverter work?

MPPT circuits inside the inverter to track the maximum power point of the PV strings. The DC power is then converted into three-phase AC power through an inverter circuit. Surge protection is supported on both the DC and AC sides. Issue 03 (2021-09-30) Copyright © Huawei Technologies Co., Ltd.

How do I Fix my Huawei inverter alarm?

Cause ID = 1/2 Turn off the AC output switch and DC input switch, and then turn them on after 5 minutes. Wait for the inverter to connect to the power grid. If the alarm persists after 5 minutes, contact your dealer or Huawei technical support.

What happens if a solar inverter fails?

Failing to do so may escalate faults or damage the equipment. The SUN2000 inverter is a three-phase grid-tied PV string inverter that converts the DC power generated by PV strings into AC power and feeds the power into the power grid. The SUN2000-8KTL-M1 and SUN2000-10KTL-M1 are not applicable to Australia.

How long does it take a Huawei inverter to discharge?

It takes 15 minutes for the inverter to discharge to the safe voltage. Refer to documentation Reminds operators to refer to the documents shipped with the inverter. Issue 03 (2021-09-30) Copyright © Huawei Technologies Co., Ltd. Fan replacement warning Before replacing a fan, disconnect its power connectors.

View and Download Huawei SUN2000 Series user manual online. SUN2000 Series inverter pdf manual download. Also for: Sun2000-3ktl-m0, Sun2000-4ktl-m0, Sun2000-10ktl-m0, Sun2000-5ktl-m0, Sun2000-6ktl-m0, Sun2000-8ktl-m0.

Circuit Diagram. The SUN2000 receives inputs from 20 PV strings. The inputs are grouped into 10 MPPT circuits inside the SUN2000 to track the maximum power points of the PV strings. The ...
