Company. Our Story; ... Vietnam and the United States. We also install Tier 1 solar modules from manufacturers in Germany, Korea and Canada.

Solar power represented only a very small part of electricity production in the United Kingdom (U.K.) until the 2010s when it increased greatly. The sudden and rapid increase of solar power can be attributed to the fact that most of the new installations in that decade were subsidized with a feed-in tariff (FIT), as well as the fact that the cost of photovoltaic panels was ...

Eagle Point Solar, filing as SZ Enterprises, and the board have been sparring over a proposed third-party power purchase agreement with the city of Dubuque for more than two years. The arrangement would have allowed the city to purchase solar energy from a third party and take advantage of tax incentives for which it otherwise would have been ...

25% - United Kingdom's Solar Share for 2021. About 24.3% of the UK's total electricity demand has been covered by solar power. This was reported by representatives of the State Electricity System of the country National Grid UK. Solar generated 8.7 GW on May 26, 2021, breaking the previous UK record set on May 10 of 8.48 GW.
