Accelerating the future of energy, together. Safety is at the core of everything we do.

Does El Salvador have a national oil company?

El Salvador does not have a national oil company. As of 2018, 45.9% of all power generation in El Salvador was state owned. CEL (Comisi#243;n Ejecutiva Hidroel#233;ctrica del R#237;o Lempa) and its subsidiaries LaGeo (geothermal), CECSA (Compa#241;#237;a El#233;ctrica Cucumacay#225;n), and INE (Inversiones Energ#233;ticas) are major power generation companies.

What is El Salvador's 2020-2050 energy plan?

El Salvador submitted an updated Nationally Determined Contributions document in January 2022 in which they set a 640 Kt CO₂eq yearly reduction from fossil fuel burning activities by 2030 (compared to the 2019 business as usual scenario). CNE (Consejo Nacional de Energ#237;a) is responsible for El Salvador's 2020-2050 energy plan.

Who regulates electricity in El Salvador?

SIGET (Superintendencia General de Electricidad y Telecomunicaciones) is responsible for regulation of the power sector. ETESAL (Empresa Transmisora de El Salvador) is responsible for power transmission in El Salvador. CRIE (Comisi#243;n Regional de Interconexi#243;n El#233;ctrica) is responsible for the regional regulation of electricity in Central America.

Energy investment in El Salvador has been significant during the last decade. The Central American nation seeks to modernize its energy matrix and increase the production of green energy to meet future needs.
