What is El Salvador's energy sector like?

El Salvador's energy sector is largely focused on renewables. El Salvador is the largest producer of geothermal energy in Central America. Except for hydroelectric generation, which is almost totally owned and operated by the public company CEL (Comisi3;n Hidroel3;ctrica del R3;o Lempa), the rest of the generation capacity is in private hands.

Who regulates electricity in El Salvador?

SIGET (Superintendencia General de Electricidad y Telecomunicaciones) is responsible for regulation of the power sector. ETESAL (Empresa Transmisora de El Salvador) is responsible for power transmission in El Salvador. CRIE (Comisi3;n Regional de Interconexi3;n El3;ctrica) is responsible for the regional regulation of electricity in Central America.

How much electricity does El Salvador have?

As of 2020, El Salvador's total installed electrical capacity was 2360 MW, fueled by a mix of fossil fuels (32.67%), hydro (24.31%), solar (20.10%), biomass (12.44%), geothermal (8.66%), wind (1.53%) and biogas (0.29%).

Does El Salvador have a national oil company?

El Salvador does not have a national oil company. As of 2018, 45.9% of all power generation in El Salvador was state owned. CEL (Comisi3;n Ejecutiva Hidroel3;ctrica del R3;o Lempa) and its subsidiaries LaGeo (geothermal), CECSA (Compa3;a El3;ctrica Cucumacay3;n), and INE (Inversiones Energ3;ticas) are major power generation companies.

How many transmission companies are there in El Salvador?

In El Salvador, one government-owned company, Etesal (Empresa Transmisora de El Salvador), which was constituted in 1999 after the restructuring of CEL (Comisi3;n Ejecutiva Hidroel3;ctrica del R3;o Lempa), is responsible for the maintenance and expansion of the transmission system. In El Salvador, there are five distribution companies.

How many generation companies are there in El Salvador?

In 2006, there were 11 generation companies in El Salvador, with 18 out of 22 generation plants in private hands and 97% of hydroelectric capacity owned by the public company CEL (Comisi3;n Hidroel3;ctrica del R3;o Lempa).

Since adopting the Paris agreement, El Salvador has prioritized clean energy sources and system-wide improvements in energy efficiency. Bioenergy, geothermal, hydropower, solar, wind, and ocean energy are the key renewable sectors receiving funding. [1]
