

Why should you use Entrix?

By working with Entrix, you benefit from trading strategies that take into account your specific requirements, for example, the intended life-time of your hardware, other assets in your portfolio, or your risk-return-profile. "We partnered with Entrix on our very first battery storage project.

How many investors does Entrix have?

Entrix has 3 investors including ABACON CAPITAL and Enpal. When was the last funding round for Entrix? Entrix closed its last funding round on Sep 6, 2023 from a Seed round. Who are Entrix's competitors? Alternatives and possible competitors to Entrix may include Coreshell Technologies, Enspired, and Aquion Energy.

What sets Entrix up for success?

They set us up for success by creating an environment characterized by collective development and high performance. We are continuously looking for bright minds who share our vision to build a sustainable and clean future. Error: Contact form not found. At Entrix, we're a diverse team united by the quest to shape our energy future for the better.

Entrix GmbH's battery optimization platform is one of the finalists for the EM-Power AWARD 2024. The platform uses battery storage to stabilize the grid and respond to frequency fluctuations, addressing the challenges of a decentralized energy system

Entrix ist unser zuverlässiger Partner für die Optimierung unseres Batteriespeicherportfolios. Dank seiner innovativen technologischen Leistung hat Entrix aus unserer Sicht großes Potenzial, Marktführer bei der Ausschöpfung ...

Entrix is an optimization and trading platform for grid-scale battery storage that accelerates the transition towards a clean energy future. Our mission is to enable the most effective use of green energy and to ensure the reliability of the future energy system.

Entrix and Enpal are proud to announce the start of Europe's largest and most innovative Virtual Power Plant (VPP) in the residential sector. This initiative, combining Entrix's expertise in optimizing Battery Energy Storage Systems (BESS) with Enpal's extensive network of residential customers, represents a significant leap forward in the energy transition. The Virtual Power ...

The Entrix team supported us along the entire development process from the design and due diligence phase during our acquisition up until the successful sale to its today's owners. Their deep battery and energy markets expertise for ...

Entrix is an optimization and trading platform for grid-scale battery storage that accelerates the transition towards a clean energy future. Our Mission Our mission is to enable the most effective use of green energy and to ensure the reliability of the future energy system. We provide state-of-the-art technology and services to both asset owners a

We build AI-based algorithms that optimize the value of a battery everyday anew. At Entrix, we place the flexibility of batteries in the right markets, at the right times to the best prices while considering battery lifecycle and degradation costs. Thus, ...

Entrix is a registered energy trader and acts as a service provider for the owners of energy assets. In doing so, Entrix collaborates closely with renowned companies in the energy sector such as Deutsche Kreditbank AG (DKB) on financing, Aurora Energy Research in market analysis, and suppliers of storage systems.

We at Entrix optimize the value of your energy assets in real-time. Based on predictions of the energy system and energy markets, our solution trades your assets' capacity into the right markets at best possible prices - tailored to the changing circumstances of every single day.

Being a part of the Entrix Team means working cross-functionally in its true sense. To provide an all-round solution to our customers, we ensure to bring all functions together under value-driven domains where they can shape all components of the product together.

What does it take to stay below 1.5°C global warming? Until 2050, we need to generate 8x more renewable power across the globe than today. The resulting volatility in power generation causes enormous challenges for electricity grids.

Entrix ist Ihr langfristiger, zuverlässiger Partner für die Vermarktung von Batteriegrößen;speichern. Dabei unterstützt Entrix seine Kunden entlang des gesamten Projektlebenszyklus eines Batteriespeichers: von der Auslegung über Finanzierungsmöglichkeiten und regulatorische Prozesse bis hin zum Start der Vermarktung und natürlich kontinuierlich während der aktiven ...

Entrix is an optimization and trading platform for grid-scale battery storage that accelerates the transition towards a clean energy future. Our Mission. Our mission is to enable the most effective use of green energy and to ensure the reliability of the future energy system.

Entrix GmbH ist ein führender Anbieter einer KI-gestützten, vollautomatischen Optimierungs- und Handelsplattform für flexible Energieanlagen. Von netzgekoppelten Batterien bis hin zu virtuellen Kraftwerken stellt Entrix sicher, dass die Anlagen bestmöglich an Handels- und Regelenergiemärkten eingesetzt werden.

Entrix is an optimisation and trading platform for grid-scale battery storage that accelerates the transition
