

We are elated to announce that SunInfra Energies has ranked amongst the top 10 solar rooftop EPC contractors in India (By capacity installed July 2020 - June 2021). It reminds us of how our company was started with a mission to decarbonize, fight against climate changes and facilitate mass adoption of Solar in the country.

And their individual installed capacities are considerably higher than any of the chasing EPC contenders. So we have joint number one winners. The two companies in question are UK-based Solarcentury and the Spanish company Grupotec. Each company can now stake claim to being the number one EPC for built solar farms in the UK as of July 2015.

Providing complete turnkey solar and battery energy storage solutions (BESS) power solutions for rooftop, commercial, ground mount and car port solutions up to mega watt scale PV projects. We offer both full EPC scope including hardware supply as well as EPC for the balance of system (BOS) according to your needs as our client.
