The 50MW Jemalong Solar Project is located near Forbes in central NSW, and constitutes the second generating solar asset in Genex's renewable energy portfolio. Genex completed successful installation of the solar panels with the project now fully operational, generating renewable energy into the grid.

Australia-based Genex Power has signed an agreement to supply 337.5MW of solar power to iron ore company Fortescue for 25 years. The energy company will supply solar power from its 2GW Bulli Creek Solar and Battery Project (BCP) to Fortescue's subsidiary, Fortescue Metals Group, the first stage of its long-term power purchase agreement (PPA).

Genex will acquire the project rights from Solar Choice, a solar energy equipment supplier based in Australia. Genex CEO James Harding said: "Genex is pleased to have today executed the transaction documents with Solar Choice for the acquisition of a 100% interest in the development rights for the Bulli Creek Battery and Solar Project.
