

Fiji battery containment box

The Lithium Safety Store(TM) has a one-way inlet port that allows you to safely connect a hose and quickly flood the box. There is no other method to extinguish a lithium battery fire, which is why it is essential lithium batteries are properly stored on your vessel.

Lithium Fire Guard(TM) is a fire containment case that is designed to protect people and property from Lithium-ion battery fires that can occur in Portable Electronic Devices (PED"s) such as laptop computers, tablets, readers, smart and cellular phones, digital cameras, and MP3 players.

The LithiumSafe(TM) Battery Box is designed for safely storing, charging and transporting lithium ion batteries. The most intensively tested battery fire containment solution on the market, engineered to fight all thermal runaway problems: Containment of fire and explosion; Thermally insulating extremely high temperatures; Filtration of toxic fumes

The latest addition to our lithium containment portfolio, the Lithium-Ion Battery Cabinet enables safe storage of batteries with full containment in case of a thermal runaway. The cabinet exceeds all IFC24 storage standards and features casters to enable easy movement and placement of inventory anywhere in the facility to meet operational needs.

Shop Battery Storage Organizer Case - Battery Storage Box with Tester Battery Container Fits AA AAA C D and 9 Volt Batteries - Fits in a Drawer or Wall online at best prices at desertcart - the best international shopping platform in Fiji. FREE Delivery Across Fiji. EASY Returns & Exchange.

This is your solution. The LIBIK FireShield Blanket and PED-Pads can be used to approach and extinguish active flames in-place and help to absorb fumes in a matter of seconds. Once the battery fire is extinguished, the device can then be safely handled and placed in the containment bag, using the high-heat gloves and fire blanket.
