

Greenvolt power Turkmenistan

Who is greenvolt power?

With a passionate management team with over 18 years of experience, Greenvolt Power is a global producer of renewable electricity which relies on experienced employees putting their know-how and expertise on solar and wind projects, as well as on the energy storage in Europe and USA.

Why should you choose greenvolt power?

We bring in-house development expertise and significant capital to help customers meet their renewable goals, attain energy independence, and reduce electricity costs. Greenvolt Power is a global power producer with 8.6 GW of solar, battery storage, and wind projects.

What is greenvolt & how does it work?

Greenvolt reduces waste and values forestry residues to create renewable energy with a positive impact in the economy and environment. Endless resources like wind and sun produce the cheapest electrical power. They are everywhere and available to everyone. Energy for all without borders or limits.

Who is the CEO of greenvolt power?

The group's CEO, João Manso Neto, showed how Poland is a key market, as well as its potential and Radek Nowak, CEO of Greenvolt Power, was also present, sharing the achievements made over the years in the renewables market and also talking about future projects with a focus on BESS.

What is greenvolt's net profit?

EBITDA reached EUR26.5 million, with the overall net profit attributable to Greenvolt of EUR-19.0 million. These results reflect the Group's ongoing investment phase, with nearly 800 MW of assets currently under construction and distributed generation operations being launched across six countries, aligned with the expectations and planned trajectory.

Greenvolt Power focuses on developing utility-scale projects as part of the Greenvolt Group, a publicly traded company on the Lisbon stock exchange. Greenvolt is committed to advancing renewable energy through the team's expertise in building solar, wind, and battery energy storage projects across the globe with a total pipeline of 7.7 GW. ...

The "Adopt a Meadow" Project is a unique opportunity for Greenvolt Power to support the active protection of Polish nature. Through this initiative, which is organized by Fundacja Kwietna, we aim to restore the rich biodiversity of a meadow in Nieborów. This valuable natural area loses its natural values and degrades with each passing season.
