

Guinea-Bissau can i install my own solar panels uk

Are DIY solar panels legal in the UK?

Yes. UK law is pretty relaxed about DIY solar panels, and in most cases you don't even need planning permission to install a full-sized array of solar panels by yourself. But going DIY may mean you miss out on government schemes, product warranties and utility company support, because you won't have the necessary paperwork or certification.

Do I need permission to install solar panels?

Nevertheless, if your building is listed or located in a conservation area, you will need to seek specific permissions. It's paramount that any solar panel installation is carried out by the Microgeneration Certification Scheme (MCS).

Where can I buy DIY solar panels?

Several companies specialise in selling DIY solar panel kits to the public. Plug-in Solaris particularly easy to follow, and offers a wide range of kits and step-by-step DIY guides, plus accessories such as solar panel mounting kits. Renology, Select Solar and Sunstore Solar are also well worth a browse.

Should I buy a DIY solar panel kit?

To save cash, you may be tempted to buy a DIY solar panel kit and fit your panels by yourself. DIY solar panels are widely available and many are excellent value compared with the cost of professional installation. For example, a full 3.4kW 10-panel kit from Plug-in Solar costs £4,728.

What are the best DIY solar panels in the UK?

Renogy 400 Watt 12 Volt: One of the best DIY solar panels in the UK. This is pretty easy to plug in and comes with solid brackets and most of the parts you'll need. You may still have to buy a roof gland (if necessary), according to UK reviewers, but other than that the kit is quite comprehensive for the average home.

Are DIY solar panels cheaper?

DIY installation can be cheaper but may result in improper installation and may invalidate your manufacturer warranty. DIY kits are easier to install than DIY installing solar panels yourself but purchase costs can be higher. It is widely recommended to contact an installer rather than installing panels yourself.

Unveil the intricacies of how to legally install your own solar panels in the UK. From planning permissions to MCS certification and the Smart Export Guarantee (SEG), our guide covers all you need to know.

Technically, yes, you can install solar panels on your own - but we strongly discourage you from doing so, unless you're a certified installer. You'll need expertise in roofing and electrical work, as well as specialist equipment and - in most cases - scaffolding.
