

Market Demand: The supply and demand rule is one of the most important factors that can cause a shift in the solar panel price. As the demand increases, the rates go higher. On the other hand, when the supply increases, the rates fall. **Type and Quality:** High-quality solar panels are more efficient and have a longer life span than low-quality solar panels.

Jinko Solar Panel. The Jinko solar panel comes in a wide range which we will mention at the end of this section. For the purposes of the article we will discuss the Tiger pro series. Tiger Pro 72TR - Monofacial; Efficiency: 21.35 %
