How many homes will Helios illuminate in Davao?

Helios, despite its broad aspirations, maintains a lean operation with a team of 15, with the aim of illuminating 10,000 homes. This ambition underscores the widespread demand for solar financing across the country, illustrated by a contract to power a thousand homes in Davao sustainably.

Is Helios a good refinancing company?

Its refinancing scheme, which combines home mortgages with solar financing, has garnered attention for its innovation and practicality. Helios has forged strategic partnerships, notably with the Bank of Philippine Islands (BPI) and Security Bank, to deliver these financing packages.

What is Helios & how does it work?

Helios, as described by its co-founder and chief customer officer Alex Aronson, operates as a climate fintech platform, orchestrating the process between banks, customers seeking to mitigate high electricity expenses, and installers.

What is the interest rate on a Helios mortgage?

Contrasting sharply with conventional bank loans that can carry interest rates between 35 to 38 percent annually, Helios offers a mortgage model with an interest rate of 6 to 7 percent over a minimum period of three years.
