Dominican Minister of Energy and Mines Antonio Almonte told his colleagues that the Dominican nation has taken large steps forward in the area of renewable energy, especially in the use of solar panels. Almonte went so far as to say that the DR is the country with the largest increase in the use of solar energy.

Thanks for the info. I am definitely going with solar. I have the opportunity to buy excess solar panels from a solar farm project. They are commercial grade 320 watt panels for \$189 each. They have 100 to sell. I read a post on DR1 that stated solar panels are duty free. Not sure exactly what I will do but I will go solar.

A Quick Solar Panel History. Alexandre Edmond Becquerel was the first scientist to discover the photovoltaic effect in 1869, which describes how energy is harnessed from sunlight. In 1941, Russel Ohl invented the solar cell, a small thermal conductor that absorbs light by heating the cell and transferring power through direct heat or indirect power from heat ...
