

Home use battery Guinea

Did mining companies buy land in Guinea?

The Guinean government has reported that hundreds of square miles once used for farming have been acquired by mining companies for their operations and associated roads, railways and ports. Villagers have received little or no compensation, rights activists and locals say.

Why is Guinea a key player in green-energy transition?

KAGBANI, Guinea -- One of the poorest countries on Earth has become a crucial player in the world's green-energy transition. Guinea, a West African nation of more than 13 million people, is home to the world's biggest reserves of bauxite-- a reddish-brown rock that is the main source of aluminum.

Why did Guinea restrict bauxite exports?

Under then-President Alpha Condé, Guinea's government gave a permit to SMB in 2015. Around the same time, Indonesia and Malaysia were restricting their own bauxite exports because of concerns over, respectively, foreign exploitation of resources and environmental degradation.

Is bauxite mined in Guinea?

The aluminum supply chain for American automakers, including Ford, General Motors and Tesla, includes bauxite mined by both of the major producers in Guinea, according to a 2021 report by Human Rights Watch and Inclusive Development International, a U.S.-based advocacy group that aims to defend communities threatened by corporate development.
