

# How to buy Trina photovoltaic panels at a low price

Are Trina Solar panels a good choice?

Trina are among the largest solar panel manufacturers in the world, and consistently listed in Bloomberg's Tier 1 top ten. Trina's monocrystalline solar panels offer both reliability and excellent value for money on commercial scale installations. Container quantities are also available with free delivery - get in touch for project pricing.

Where are Trina Solar panels sold?

Its products have power outputs ranging from 170W to 290W. Sales and marketing offices cover Asia, Europe and North-America, and its products are sold in all major PV markets worldwide, such as Germany, Italy, USA, France, and Japan. Why choose Trina Solar Panels for your UK home?

How does a Trina Solar panel work?

Trina Solar panels work by using thinner wires to connect the cells together, which does not impact the appearance of the panel at all. The panel shows excellent low-light performance, validated by a 3rd party, and remains efficient even at high temperatures. Trina Solar's half-cut cell design ensures better shading tolerance.

Which Trina Solar modules are best for rooftop PV applications?

Quadmax is available with black frame. These modules from Trina Solar offer the best performance in rooftop PV applications. The advanced PERC and 5 busbar technology helped Honey M Plus products to set the output world record of 335.2Wp for a 60-cell module in 2014.

Does Trina Solar have a user manual?

**KEY FEATURES:** Important: Trina Solar has recently stated that while fitting their modules one should follow Trina Solar's own User Manual, as improper fitting can invalidate product warranty. The Trina Vertex S 430W Dual Glass improves durability, fire resistance, performance and recyclability.

What is Trina Solar 415W?

Trina Solar 415W is a monocrystalline module with a 20.4% efficiency, which is a long stretch ahead of what conventional panels have to offer. Trina Solar 415W has a low temperature coefficient of -0.36%, which means that the module's efficiency decreases just 0.36% for every 1.8°C above 77°F. This helps to maximize the final energy output.

The Trina TSM-450W NEG9R.28 is a 450W N-Type Solar Panel with a black frame. The panel adopts a durable dual-glass design and utilises N-Type i-TOPCon cells, which helps to achieve higher power, better efficiency and ...
