

# How to clean photovoltaic panels at the seaside

Do solar PV panels need to be cleaned?

That said, most solar pv panels in the UK will not need any heavy-duty cleaning because regular rain will wash most dirt and grime off the surface, dispelling one of the myths about solar being its difficulty to clean.

How do you clean a solar panel?

Lubricant manufacturer Polywater produces a Solar Panel Wash to help water lift off grime without leaving a film behind. SunSystem Technology uses a blend of diluted vinegar and hydrogen peroxide to remove dirt. And, homeowners can wash their solar panels manually using a garden hose and a soft sponge without cleaning agents.

Can you use deionized water to clean solar panels?

Solar maintenance companies like US-based Bland Company and Premier Solar Cleaning have found that using deionized water with a rolling or vehicle-mounted brush allows them to clean panels without using soap, which leaves a residue that not only shades panels but attracts dirt.

Should you clean your solar panels regularly?

The experts at Solar Panel Cleaning Ltd explain that if you don't regularly clean your solar panels dust can accumulate and even just one dusty cell can affect the performance of the entire panel.

Can SolClean be used on solar panels?

SolClean claims to be 100% biodegradable and environmentally friendly and is safe on most types of solar panel surface including the frames and seals. It can be used on both solar thermal panels as well as solar PV and is a non-caustic formula.

Can a cleaning brush be used on solar panels?

It can be used on both solar thermal panels as well as solar PV and is a non-caustic formula. This cleaning brush is specially designed to clean solar panels with a 7.5 metre telescopic rod and rotating circular brushes with a direct water feed.
