

# How to register photovoltaic panels with insurance companies

What is solar panel insurance & how does it work?

Solar panel insurance shields homeowners from financial losses due to damage, theft, or other unforeseen events affecting their solar energy systems. Let's dive into solar panel insurance in the UK and see how it can keep your roof (and your bank account) happy. What is not covered by solar panel insurance?

Does homeowners insurance cover solar panels?

Usually, homeowner's solar insurance packages cover all types of solar panels: monocrystalline, polycrystalline PV, or thin film solar panels. The insurance protects your solar rooftop against common risks, such as fire, hail, lightning, storm damage, or theft. The claim limit for solar panel coverage varies depending on the policy.

Do you need commercial solar panel insurance?

Comprehensive commercial solar panel insurance protects the investment if a business owns the panels. When solar panels are leased, the responsibility for insurance typically falls on the panel owner. The next key point revolves around the heightened liability risks associated with commercial solar panel systems.

How to start a solar panel business in the UK?

Every business needs to consider UK legalities to stay above board. When it comes to setting up a solar panel business, you'll need to have your MCS certification. Being a member of a CPS for microgeneration technology, such as NICEIC is worthwhile too. 5. Get the right insurance

How much does solar panel home insurance cost?

The annual cost of solar panel home insurance ranges from £118 to £152, which seems reasonable compared to the potential risks. Once you decide to install solar panels, inform your home insurer. Solar panels contribute to rebuilding your home's value, so it's important to list them in the insurance coverage.

What insurance options are available for solar panels?
