

How does France support the battery industry?

Strong financial support for industrialization on the battery value chain To support projects in the battery industry, France has decided to create a new tax credit covering 25% of investment expenditure for large companies and up to 45% for small companies capped at EUR200 million per company.

Why is France focusing on a battery value chain?

Today, France's efforts are focused on attracting projects covering the entire battery value chain in order to establish a comprehensive national offering. This ambitious vision is underpinned by a proactive policy addressing both supply and demand in the battery market. Strong financial support for industrialization on the battery value chain

What is France's plan batteries?

In 2018, France launched the Plan Batteries, subsequently extended by France 2030, aimed at accelerating the development of a national battery industry. This ambitious strategy has enabled France to attract investment for six gigafactories: ACC, Envision, Vekor, Prologium, Tiamat and Blue Solutions.

La batterie Fulmen FE2353 Strong Pro, dernière génération du design HVR (High Vibration Resistance), met en avant la technologie Carbon Boost. Cette solution intelligente a pour but de réduire le risque de stratification de l'acide et de bénéficier d'une
