

Infinite power solar South Africa

What can Infinity Power do for Africa?

In this way, Infinity Power can provide answers to the challenges of energy supply and power insecurity across the African continent. Infinity Power has set an ambitious target of developing 10 GW of operational renewable energy across Africa by 2030, requiring a substantial \$5 billion USD investment.

Is Infinity Power Africa's largest pure play operator?

"Infinity Power has emerged as the largest pure play operator and developer of renewable power in Africa," says Ahmed Mulla, the new operation's deputy chief executive. Infinity Power's portfolio already stands at 1.3 GW and millions of people across Egypt, South Africa and Senegal use its clean power.

Will infinity power achieve 2GW of greenfield projects by 2025?

Mohamed Ismail Mansour, Chairman, Infinity Power said, "Having successfully finalized the Lekela acquisition, we will build upon this milestone to reach our target of installing and operating 2 GW of greenfield projects by 2025.

Infinity Power is the largest African pure play renewable energy provider. The joint venture between Egypt's Infinity and Masdar (Abu Dhabi Future Energy Company) targets power generation projects in Africa through renewable energy sources, namely solar and wind, as well as other technologies such as green hydrogen and water desalination.

Infinity Power, a joint venture between Infinity and Masdar, has set the impressive target of achieving 10GW of operational renewable energy by 2030. Already holding an operational capacity of more than 1.3GW (including solar and wind sites in Egypt, South Africa and Senegal), Infinity Power is Africa's largest pureplay renewable energy company.

Now the largest private producer of renewable energy on the continent, Infinity Power is busy expanding its wind, solar and green hydrogen projects. Its CEO, Egyptian billionaire Mohamed Ismail Mansour, talks to The ...

Infinity Power was established in 2020 to develop utility-scale and distributed solar energy and wind power projects in Africa. By developing renewable projects in Africa, Infinity Power aims to improve energy access across the continent, while boosting economic development, and creating much-needed jobs, particularly in remote areas.

Now the largest private producer of renewable energy on the continent, Infinity Power is busy expanding its wind, solar and green hydrogen projects. Its CEO, Egyptian billionaire Mohamed Ismail Mansour, talks to The Africa Report about his strategy and ambitions.

Infinite power solar South Africa

Explore the diverse range of renewable energy projects under development by Infinity Power. From expansive solar clusters in South Africa to pioneering green hydrogen projects in Egypt and Mauritania, Infinity Power is at the forefront of sustainable energy solutions.

Infinity Power is the largest African pure play renewable energy provider, operating a portfolio totaling 1.3GW. This includes some of the world's most exciting renewable energy projects, focusing on solar and onshore wind technologies and generating energy across Egypt, South Africa and Senegal.

Infinity Power, Africa's largest pure play renewable energy provider, focuses on utility-scale solar and on-shore wind technologies. With a strong presence in Egypt, South Africa, and Senegal, they aim for sustainable power generation and a reduction in CO2 emissions for a better future.
