The solar power plant will help save more than 130,000 tonnes of carbon dioxide emissions annually. In total, 152 GWh of green electricity will be produced annually, benefiting Kosovo households, public institutions and companies.

The Role of Disconnects in Safety and Maintenance. Disconnects are installed both on the DC side, between the solar panels and the inverter, and on the AC side, between the inverter and your home's electrical panel. This dual placement ensures that you can safely shut down your system to prevent electrical shocks or damage
