

Kyoto group as American Samoa

Who is Kyoto Group?

Kyoto Group is a Norwegian company founded in 2016 to capture and manage the abundant energy from the sun and wind, and apply it to reduce the CO2 footprint for industrial process heat. Join our mailing list. Kyoto produces a thermal battery, Heatcube, which replaces oil, gas or diesel burners currently on site, and is charged using electricity.

How can Kyoto Group help businesses achieve sustainability goals?

Kyoto Group can play a vital role in helping businesses to achieve their sustainability goals and contribute to the UN Global Compact's efforts to promote sustainable and responsible business practices.

What happened to Kyoto Group's thermal heat technology after the IPO?

Read more about Jon here. Following the IPO, Kyoto Group has continued to commercialize the company's thermal heat technology. The first Heatcube thermal battery was ordered in the summer of 2021, to be installed as a commercial demonstration unit.

What happened to Kyoto Group?

Kyoto Group partnered with Hydro and others and did an IPO in the spring of 2021. The board was expanded with some of Norway's most experienced industry executives, and the organization was scaled up. Meanwhile, Jon, ever the inventor, moved on to other projects. Read more about Jon here.

Kyoto Group is a validated member of the World Alliance for Efficient Solutions by Solar Impulse Foundation. Our flagship product, Heatcube, has earned the prestigious Solar Impulse Efficient Solution Label, which recognizes clean, profitable solutions with the potential to tackle today's pressing environmental challenges.

En otoño de 2021 se llega a una gran meta. Kyoto Group firma su primer contrato comercial para Heatcube en el marco de un acuerdo de alquiler de baterías con la empresa Aalborg Forsyning en Dinamarca. Así se completa el viaje de Kyoto desde una humilde cocina solar de cartón hasta baterías térmicas de escala industrial.
