

Levelten energy Slovakia

What is LevelTen energy?

LevelTen Energy, Inc. and its affiliates ("LevelTen") provides a renewable energy marketplace and platform comprising certain proprietary software, data analytics, contract templates, and related tools and processes, to aggregate renewable energy buyers and sellers, allowing the parties to connect and transact efficiently (the "LevelTen Platform").

Are LevelTen energy's challenges real?

LevelTen Energy CEO Bryce Smith. (LevelTen Photo) The challenges are "certainly real but at the same time, I think we're fully capable of accommodating that new load," Smith said. "There are a portfolio of technologies that I think make us more than capable of accommodating new demand."

Is LevelTen expanding to Europe?

LevelTen announced its initial expansion to Europe in October 2019, and since then has been signing up developers at more than twice the rate that it did in North America. In less than six months following LevelTen's first European RFP, the LevelTen Marketplace had 100 new developers with European projects.

Is LevelTen a power-source agnostic?

Smith said the platform is power-source agnostic and can be quickly adapted to support sales of new technologies such as nuclear power and hydrogen. In early 2023, LevelTen and Google Cloud teamed up to develop a new platform called LEAP that accelerates energy deal making.
