Smart Energy International | News & insights for smart metering, smart energy & grid professionals in the electricity, water & gas industries.

What is energy in Malta?

Energy in Malta describes energy production, consumption and import in Malta. Malta has no domestic resource of fossil fuels and no gas distribution network, and relies overwhelmingly on imports of fossil fuels and electricity to cover its energy needs.

Who owns Smart Energy International?

Smart Energy International is owned by Clarion Events, a global business-to-business event organiser. They have partner companies in the UK, Netherlands, South Africa, Brazil and Singapore, and enjoy unique relationships with the Enlit, Utility Week, DISTRIBUTECH and POWERGEN events around the world.

The International event is part of the 2019 International Sustainable Built Environment conference series convened under the auspices of the five international organizations: iSBE, CIB, UNEP-SBCI, and FIDIC. SBE19 is the second conference in the International SBE Series to be held in Malta following the success of the SBE16 Malta Conference.
