When will Solar Pacific finish its solar PV project in Palau?

It aims to finish its solar PV project in Palau and battery storage by April 2023. Solar Pacific's chairman Perez said that the project, which marks the group's first foray into overseas energy markets, is now at 65% completion. To help Palau achieve its renewable energy goal of 45% by 2025, the project will supply up to 23,000 MWh.

What is a solar PV project in Palau?

With a capacity of 15.3 MWp solar PV and 12.9 MWh BESS, the project supports Palau's goal of achieving a 45% renewable energy share by 2025. The project's total investment of USD 29 million contributes to Palau's energy independence, clean power generation, carbon emissions reduction, and local employment opportunities.

Where is Palau's first solar power plant located?

We're proud to have supported the establishment of Palau's first utility-scale solar power plant at Ngatpangon Babeldaob. energy storage system, was undertaken by Solar Pacific Pristine Power, a privately owned company.

As a 6 year-old start-up based in Faridabad, Haryana, we manufacture solar panels, inverters, and lithium batteries. The company is ISO 9001 - 2015 certified and is a recognized startup by the Government of India. There are 150 employees, 10,000 resellers, 5 facilities, and 1 manufacturing facility across in India.

It aims to finish its solar PV project in Palau and battery storage by April 2023. Solar Pacific's chairman Perez said that the project, which marks the group's first foray into overseas energy markets, is now at 65% completion.
