Does Namibia have solar power?

We have the potential to capture around 10 hours of strong sunlight per day for 300 days per year. As a result, Namibia has some of the highest solar irradiance potential of any country in Africa, which is sufficient to provide power for our people and our neighbours.

How long does it take to pay off light systems Namibia?

The remaining 30% of the cost can be paid off in 3 months. Light Systems Namibia is a Technology and Data Company focused on Sustainable Energy Solutions. Light Systems Namibia deploys its standardized Energy Solutions as an alternative conventional supplier.

Can I get a loan to install a solar system?

Light Systems Namibia (LSN) is registered with MME Solar Revolving Fund (SRF), so finance from those institutions can be arranged. For FNB clients, there's the option of the FNB Renewable Energy Loan. A Personal Loan with your commercial bank can also be used. LSN accepts a 70% deposit before solar system installation, if the full cash amount cannot be paid upfront.
