

Bovendien kan Near grid Solutions de plc vanop afstand aansturen, monitoren en updaten. In tegenstelling tot bij dieselgeneratoren hoeven werfleiders dus ook niet meer handmatig om te schakelen. Dankzij de geïntegreerde energiemeters van Siemens krijgt Near grid Solutions een gedetailleerd en realtime beeld van de energiedata van de bouwwerf.

Near grid Solutions ontwikkelt daarom mobiele batterijsystemen die de elektrificatie van werven faciliteren. Geen evidentie, door de diversiteit aan nettopologie n en verbruikers. De energie-effici nte blue e transformatoren van EREA brachten gelukkig soelaas. Duurzame kwaliteit, made in Belgium.

At Neargrid, we help construction companies with their energy transition. As a system integrator, we develop integrated solutions, fully tailored to the construction industry. Our mobile battery systems power construction sites. This makes it possible to replace diesel generators with electric solutions without burdening the distribution grid.
