

What is New Caledonia's energy policy?

As a country of Oceania, one of the parts of the world most impacted by climate change, New Caledonia wishes to be exemplary in terms of energy policy. Building on the Paris Agreement, the Congress of New Caledonia adopted the Energetic Transition Scheme of New Caledonia (STENC) in June 2016. The scheme has three main objectives for 2030:

What will TotalEnergies do in New Caledonia?

Noumea, December 20, 2021 - TotalEnergies will develop a series of photovoltaic and energy storage projects in New Caledonia in order to deliver decarbonized electricity via a 25-year renewable power purchase agreement (PPA) for the industrial operations of mining and metallurgy consortium Prony Resources New Caledonia.

Does Prony Resources New Caledonia support decarbonization?

“Prony Resources New Caledonia's commitment to decarbonization is both ambitious and pioneering in the industry. We are very proud to support their energy transition, and that of New Caledonia,” said Thierry Muller, CEO of TotalEnergies Renewables France. “As industrial firms, we think and act responsibly.

What is New Caledonia's economy like?

New Caledonia's economy is one of the most dynamic in French overseas territories, which is particularly related to underground resources: New Caledonia holds between 20% and 30% of the world's known nickel reserves. High productivity = high dependence?

Why is New Caledonia so vulnerable?

The dependence and size of New Caledonia's market compared to larger countries in the Asia-Pacific zone makes the island very vulnerable in terms of energy supply - an unnecessary level of dependence considering the local renewable resources that could be exploited on the island.

Where is New Caledonia located?

New Caledonia is a French territory made up of a group of islands and archipelagoes of Oceania, located in the Coral Sea and the South Pacific Ocean. It has a wide lagoon often considered “the most beautiful lagoon in the world”.

Solstice ze, 1234ze is a fluorinated gas from the HFO family. ... AF Energy, manufacturer of liquid coolers for the food and beverage industry, selects Solstice® L40X. 10.12.2020. Food process ... these systems are designed according to specifications and make processes safe.
