Thinking of being more energy-efficient in your home? Go Solar. A solar panel is a renewable energy source that gets its power from the sun. And for this guide, we've outlined the best solar panels in New Zealand so you know which ones to get! There are many solar panels out there offered by prestigious brands, you see.

Solar panels are made up of solar cells, which grab the sun's rays and absorb their energy. That energy is sent to an inverter that can take the direct current generated by the solar panels and turn it into alternating current our homes can use. The choice of your solar inverter may have an impact on your choice of panels.

Solar Panels. Record-breaking efficiency, built to endure. LONGi's solar panels deliver world-class record breaking efficiency and resilience, proven across 150+ countries. Recognised as PVEL's Top Performer for six years, these panels withstand New Zealand's varied climates to provide reliable, long-term energy savings.

Are you considering making the switch to solar energy in New Zealand? If so, you've come to the right place. In this comprehensive guide, we will walk you through everything you need to know about solar panels in NZ. From the basics of how solar panels work to the benefits...

SunPower Solar Panels Christchurch, regarded as the best Solar Panels in NZ. Amazing 40 year product warranty on SunPower Maxeon 3 and Maxeon 6 Solar Panels, with improved efficiency, enhanced performance and reliability for more lifetime energy and real savings.

Solar panels sold by reputable companies in New Zealand usually have a performance warranty range between 25 and 30 years. The panel's product warranty can range between 10 years and 25 years. This tells us we can expect solar panels to last at least 25 years which is a factor when figuring out the payback on investing in solar.
