

New solar bracket customization

How does Schletter's solar mounting system work?

Fine-tune the positioning of your solar panels effortlessly. Schletter's solar mounting systems allow you to adjust in 5-degree increments, providing flexibility and customization options tailored to your requirements. This single-row module assembly accommodates a range of 50-75° inclinations with facade supports.

Why should you choose Schletter solar mounting systems for facades?

Schletter's solar mounting systems for facades are designed for a quick and hassle-free assembly process. With user-friendly design principles, installation becomes straightforward, saving you valuable time and effort. Our mounting systems include optimized stationary sections, enabling precise adjustments to achieve the desired panel inclination.

What is a vertical solar mounting system?

THE VERTICAL VARIANT. Schletter's vertical solar mounting system allows you to seamlessly integrate your solar panels with your building's facade, enabling you to harness solar energy efficiently and sustainably.

How do I install a solar photovoltaic system?

The most efficient way to install a solar photovoltaic system is by using a Heliomotion. Simply because a Heliomotion has innovative sun-tracking technology that enables solar panels to track the sun throughout the day and year. The possibilities for mounting solar are endless.

How do standing seam solar panels work?

Once the manufacture of the standing seam roof is known, a specialist clamp is selected. The clamps fix to the standing seam, the amount needed is dependent on wind loading calculations, typically four - six per panel. The clamps fasten to the upstand allowing for a rail to fix to them using bolts. The solar panels then fix to the rail.

Can solar panels be installed on a standing seam roof?

One last thing to consider when installing solar panels to a standing seam roof is how to get the cable inside. Two of the most common options are one, to drill a hole into the roof and weather back in using a specialist cable inlet product.
