Nidec power Turkmenistan

The PCS (Power Conversion System) consist of converters, control system, transformer & switch gear (where needed). Thanks to its modular design we can quickly configure Power Conversion Systems for both large commercial & industrial plants as well as utility scale units with one of the highest power densities available on the market.

The first Made-in-Turkey generator ever supplied in the Turkish market, designed by Nidec ASI, will be installed on a 10 MWe geothermal power plant for EXERGY's customer Kiper Elektrik Üretim A.?., part of Kipa? Holding group.
