

Norfolk Island automated vertical storage solutions

What are vertical storage solutions?

Vertical storage solutions are the best way to make use of every inch of warehouse space you have. We don't mean building out, we mean building up. With products like Vertical Lift Modules and automated storage and retrieval systems (ASRS) from our partners at Modula, we are able to recover up to an incredible 90% of the currently used floor space.

What is an automated vertical storage system?

An automated vertical storage system is a contained access system that takes advantage of typically unused vertical storage space in a warehouse. They are the solution for many challenges found in warehouses and shop floors across the world today. These warehouse storage systems are offered at Vertical Storage USA:

What is a modular vertical storage solution?

Created to make the most of available vertical space and save floor space at the same time, Modula automated vertical storage solutions are suited to any type of product, in any industry sector or environment, and can be customised to various payloads, heights, sizes and options.

What is a vertical warehouse storage system?

Vertical warehouse storage systems help you do that as they optimize previously unused vertical space and effectively increase your storage capacity (while occupying only a small footprint) - creating up to 75% floor savings.

Why should you choose Modula automatic vertical storage solutions?

Modula automatic vertical storage solutions are designed to save space and time and improve process efficiency. The automatic vertical tray warehouses were designed according to the "goods-to-man" principle: there is no need for operators to move around the warehouse to pick or refill your goods.

How can vertical solutions save your warehouse floor space?

Vertical solutions can save up to 60% of your warehouse floor space and dramatically increase the pace of accessing and retrieving items from storage. Our specialists will be happy to develop a solution that meets your specific storage and intralogistics requirements. Contact us for more information and details.
