How long does it take to charge a pecron E3000?

With 1,200W of input power, you could get the Pecron E3000 charged up in under two hours from solar power alone! That's the kind of turnaround time you want in a disaster scenario! The Pecron E1500 Pro is a 1450W capacity battery power station with both AC and DC outputs and a wireless charger along with multiple ways to recharge it.

Stay powered and be prepared for off-grid living & power outage! PECRON solar generators strive to satisfy the power needs of diverse group of customers including home owners, campers, ...

My problem with the Pecron was I would lose solar charging when I wanted to top up with the generator. My problem with my current BlueSun inverter is that I have to power the entire house with the generator when I want to top up with the generator, but the generator does not do 3KW. Anyhow, good luck.
